RELEASE DATE: December 6, 2006

13 Tracks Total

Taking the world in a storm through her fascinating music and beautifully artistic fashion sense, Kitade Nana has distinguished herself as one of the hottest new idols in Japanese music.

"I Scream" is an awesome display of the complexity of Nana Kitade's latest music.

The first thing I noticed about the songs in the album are that Kitade has a wonderful arrangement as she produces different types of emotions through each song.

With the diversity in her music, it might be difficult to place Nana's sound in a single category.

In one tune she can be singing softly to a romantic ballad, while in another tune she can be singing at the peak of her dynamics to a powerful hard rock melody.

The album opens with a wonderful, heart warming song, "Star Killer".

Nana Kitade's voice is very soft and she sings with an unforgettable sweetness.

The richness in her voice is only complimented by the lightly played guitar riffs.

The effects in the musical arrangement are creative as they create a soft pulsating ambience.

"Lum no Love Song" (a remake of the classic "Urusei Yatsura" anime theme song) is a delightfully charming song as Nana Kitade sings it with a captivating innocence.

The song opens with a guitar riff which Nana melodically retains through out the whole playful melody.

One of the most outstanding tracks on the album would be "Dark Snow Angel".

This riveting song is an awesome display of Nana Kitade's powerful and artistically creative vocal abilities.

The music makes one feel as though there is a mysterious struggle between love between human beings. There is a love that is strong yet misunderstood by the mystical entities in heaven.

With a wide array of musical ability and beautiful fashion sense, Nana Kitade is a wonderful addition to the world of Japanese pop music.

For the many fans of Nana Kitade, this album is definitely one not to miss. The variety expressed in her music allows for fans of different tastes to enjoy something fresh and new.

This album is an awesome arrangement of music by the talented and beautiful Nana Kitade.

### SLOW ♥ JAM

Sweet Ballade Collection

singer Calyn's "Black, Bitter & Sweet" album (RXCD-21013, rel. on Nov. 20, 20002) with song such as her beautiful duet "FOR YOUR LOVE" that has a gospel choir style feel to it and the ultra smooth song "POPLAR".

From singer and rap artist TIGER, three songs like the beautiful and beat thumping R&B song "A Love Story" selected from her "BLACK HAIR AND BLACK EYES" album (RXCD-21008, rel. on July 24, 2002).

All in all, a good R&B slow jam compilation if you are interested in any of the three artists.
